

eiMaths are a team of dedicated and passionate Singaporean educators with over ten years of experience in designing and delivering mathematics learning programs and materials, books and manipulatives.

As professionals from the education field, our team is highly proficient in mathematics, and we can bring the best to our students by constantly keeping abreast of any changes and developments in Mathematics to ensure that our programs and materials enable students to fast track their learning and achieve outstanding results in mathematics.

Our Courses

Lower Primary

Our lower primary class (**P1 – P3**) builds the foundation in fundamental mathematical theories, methods and concepts. Children develop confidence, concentration, and the ability to think critically, leveraging extensive reasoning to solve problems rather than rote memory.
